

BANDANA SOLDADOR TEXTIL IGNIFUGO

Ref. 10442

The Solter Flame-Retardant Textile Welder's Bandana is designed to provide **thermal protection** and **superior comfort** during welding work. Made from **washable flame-retardant cotton**, it features an inner mesh that **dissipates heat** and allows optimal ventilation during long work sessions. With an ergonomic design that fits perfectly to a **58 cm circumference**, it is compatible with most industrial helmets. It complies with standards, ensuring certified safety for professionals.

Main Features:

- ✓ **Certified flame-retardant cotton:** Flame-resistant fabric compliant with EN ISO 11611:2015, ideal for demanding welding environments.
- ✓ **Full European approval:** Product compliant with Regulation (EU) 2016/425 and certified by the notified body CCQS UK Ltd. (CE-PC-210714-290-01-9A).
- ✓ **Universal ergonomic design:** Fits comfortably to a 58 cm circumference, compatible with safety helmets while maintaining stability.
- ✓ **Advanced breathability:** Features an inner mesh that dissipates heat and enhances ventilation during long working hours.
- ✓ **High durability and resistance:** Retains its flame-retardant properties after multiple washes, providing long-lasting protection without stiffness.
- ✓ **Designed for professionals:** Ideal for welders seeking effective protection for the head and face against sparks and projections.
